Roger Bentcha

Available immediately

Full-Stack Software Developer, Product and Platform, TypeScript, Node.js, React

Paris, France; +33 7 81 26 12 82; rogerbentcha@gmail.com
linkedin.com/in/roger-bentcha - github.com/Carter2307

Full-stack software developer (product and platform) with nearly 3 years' experience on B2C and B2B applications in production, from front-end to back-end, cloud and CI/CD. Seeking new opportunities to progress and take on greater technical responsibility.

SKILLS

Tech stack: TypeScript, JavaScript, Rust, Python, Java, React, Next.js, TailwindCSS, Storybook, Flutter; Node.js, NestJS, Express, Spring Boot, PostgreSQL, MongoDB, Redis, SQL, AWS, GCP, Docker, Kubernetes, Nginx, Git, GitHub Actions, GitLab CI, HubSpot, Salesforce, Make.com

Software design: modular architecture, microservices, REST APIs, DDD

Testing and quality: unit testing (Jest, Vitest), end-to-end testing (Playwright), TDD, BDD

AI: Claude Code, GitHub Copilot, Codex; **Methodologies:** Agile, Scrum; **Tools:** Linux, Figma, Notion

EXPERIENCE

Full-Stack JavaScript/TypeScript Developer

Oct 2024 – Sep 2026

Hellio - *Energy-efficiency renovation, digital division, Agile/Scrum team - Paris*

Stack: React, TypeScript, NestJS, Jest, Vitest, Playwright, HubSpot, Salesforce, Swagger, Postman

- Rebuilt the lead-acquisition simulator (simulateur.hellio.com) in React/TypeScript: **+30% conversion**.
- Built a shared React component library and developed the NestJS API endpoints for the Solar offering.
- Automated the sync of qualified leads from HubSpot to Salesforce (Make.com): **15 leads a day** with no manual entry.

Full-Stack JavaScript/TypeScript Developer

Nov 2023 – Sep 2024

Preciyus Studio - *Video production studio - Paris, remote*

Stack: Node.js, Express, React, AWS, MongoDB, Stripe API

- Set up the AWS infrastructure (EC2, S3, CloudFront, Route53, Amplify) behind an Nginx reverse proxy.
- GitHub Actions CI/CD pipeline to AWS: **deployment time cut from 7 min 40 s to 2 min 20 s** (-70%).
- User, media and payment APIs (Stripe), with optimised media loading.

PERSONAL PROJECTS

Ferry, a self-hosted alternative to Render (PaaS), written in Rust

github.com/Carter2307/ferry

Stack: Rust (Tokio, Axum, Hyper, SQLx), Docker, React, TypeScript, TanStack Query, Vitest, GitHub Actions

- Deployment platform: builds from git, a local folder or a Docker image, zero-downtime blue/green deploys, rollbacks, scaling, self-healing, HTTP/2 reverse proxy and automatic HTTPS (Let's Encrypt).
- Workspace of 10 crates (CLI, OpenAPI REST API, React dashboard), **900+ tests** and GitHub Actions CI (clippy, Docker end-to-end tests), built with Claude Code.

Traduko, an offline desktop translator for macOS, in Rust

github.com/Carter2307/traduko

Stack: Rust, GPUI, Candle, OPUS-MT models (Hugging Face), macOS APIs (objc2)

- Floating mascot that opens a live translation panel; **fully on-device** inference with Candle, 15 languages, automatic language detection, choice of a light or a more accurate model.

ferry-ui, a React design system for dense product interfaces

github.com/Carter2307/ferry-ui

Stack: React 19, TypeScript, Radix UI, Tailwind CSS v4, Storybook, Vitest

- Light and dark design tokens, 28 accessible primitives, patterns and application layout; tree-shakeable ESM library, documented (JSDoc, Storybook) for developers and AI agents alike.

EDUCATION

Master's in Software Architecture, ESGI Paris; RNCP Level 7 (master's level) — 2024 – 2026

Bachelor's in Software Architecture, ESGI Nantes — 2023 – 2024

Engineering preparatory class (CPGE ATS), Lycée François Arago, Reims — 2022 – 2023

LANGUAGES AND INTERESTS

French native; **English** professional working proficiency; **Interests:** football, running, weight training, drawing
